**1. Identification of the substance/preparation and of the company/undertaking****Identification of the substance or preparation**

Aquafill (115355-X)

**Use of the substance/preparation**

filler paste for AQUACORE and AQUAPOUR

**Company/undertaking identification**

Company name :	R&G Faserverbundwerkstoffe GmbH	
	Composite Technology	
Place :	D-71111 Waldenbuch	
Telephone :	+49-7157-530460	Telefax : +49-7157-530470
e-mail :	info@r-g.de	
Internet :	www.r-g.de	
Inquiry office :	business management	
Emergency telephone :	poison information centre	

**2. Hazards identification****Classification**

There is no obligatory labelling requirement according to the regulations covering preparations 1999/45/EC. Please observe though the information on this safety data sheet.

**3. Composition/information on ingredients****Chemical characterization** ( preparation )**4. First aid measures****General information**

Consult a doctor when complaints persist.

**After inhalation**

Provide fresh air.

**After contact with skin**

After contact with skin, wash immediately with soap and plenty of water.

**After contact with eyes**

Immediately flush eyes with plenty of flowing water for 10 to 15 minutes holding eyelids apart.

**After ingestion**

Rinse mouth with water. Consult physician.

**5. Fire-fighting measures****Additional information**

Material itself is not combustible. Extinguishing materials should be selected according to the surrounding area.

**6. Accidental release measures****Personal precautions**

Provide adequate ventilation. See protective measures under point 7 and 8.

**Environmental precautions**

No special measures are necessary.

**Methods for cleaning up/taking up**

Absorb with liquid-binding material ( e.g. sand, diatomaceous earth, acid- or universal binding agents).  
Treat the assimilated material according to the section on waste disposal.

**7. Handling and storage****Handling****Advice on safe handling**

Provide adequate room ventilation, if necessary with vapour extraction at the workplace.

**Advice on protection against fire and explosion**

No special measures are necessary.

**Storage****Requirements for storage rooms and vessels**

Store product in closed containers.

**Advice on storage compatibility**

Do not store together with: Oxidizing agents.

**Further information on storage conditions**

Keep in well sealed receptacles at a cool, dry location.

Storageclass (VCI) : 10-13

**8. Exposure controls/personal protection****Exposure limit values****Exposure controls****Protective and hygiene measures**

Do not smoke, eat, or drink during work. Keep away from foodstuffs and fodder. Do not breathe in dust.

**Hand protection**

Protective gloves approved e.g. under EN 374 provide adequate protection against possible skin contact.

At all events the protective glove should be tested for workplace suitability (mechanical resistance, product compatibility, antistatic properties, etc.).

Observe the instructions and information issued by the glove manufacturer on the use, storage, care, and replacement of gloves. Protective gloves should be replaced immediately they are damaged or show initial signs of wear.

The work must be planned so that gloves do not have to be worn at all times. "

Qualified materials: rubber

**Eye protection**

Wear goggles. (EN 166)

**Skin protection**

Wear protective clothing.

**9. Physical and chemical properties****General information**

Physical state : Paste  
Colour : white  
Odour : odourless

**Important health, safety and environmental information**

Test method

# Safety Data Sheet

**Changes in the physical state**

Boiling point :

100 °C

Density :

1,0 g/cm<sup>3</sup>

Water solubility :

easily soluble.

**10. Stability and reactivity****Conditions to avoid**

unknown

**Materials to avoid**

Oxidizing agents.

**Hazardous decomposition products**

toxic and caustic gases and vapours

Carbon dioxide.

Carbon monoxide.

nitrogen oxides (NOx).

aldehydes.

smoke

**11. Toxicological information****Empirical data on effects on humans**

Contact with the eyes can cause irritation through mechanical means (dust). Repeated and sustained skin contact can cause demoiustrisation and irritation.

**12. Ecological information****Further information**

Leakage into the environment must be prevented.

**13. Disposal considerations****Advice on disposal**

Waste key numbers are assigned according to the European Waste Catalogue (EWC) depending on the sector and process type.

**Contaminated packaging**

Packaging must be emptied and transferred to proper disposal in compliance with the legal provisions.. Packaging that cannot be emptied completely must be disposed of after consultation with the local disposal company.

**14. Transport information****Land transport (ADR/RID)****Description of the goods**

Not a hazardous material with respect to transportation regulations.

**15. Regulatory information****Labelling****Additional advice on labelling**

not classified as dangerous under the hazardous substances laws (GefStoffV)/EC Directives

**National regulatory information**

Water contaminating class :

1 - slightly water contaminating
